

TRADE EXHIBITION

The trade exhibition is a key part of the conference and we have a range of companies and manufacturers taking part. Not only will you be able to find out about new eye care innovations and eye health pharmaceutical products but you will also be able to try out the latest optometry equipment such as new cameras and OCT technology.

Abbott Medical Optics

www.amo-inc.com

Abbott Medical Optics is a global leader in vision care and advanced refractive technologies. Our corneal products serve patients who wear contact lenses or experience dry feeling eyes and includes our flagship MPS brand Complete RevitaLens MPDS and the market-leading blink eye drops range.

Alcon www.uk.alcon.com

The integration of Alcon and CIBA Vision was completed in the summer of 2012. Now known as Alcon, the product portfolio includes the Air Optix brand of breathable contact lenses with innovative TriComfort technology, Dailies disposable contact lenses, and FreshLook colored lenses.

Bausch+Lomb www.bausch.co.uk

Bausch+Lomb is dedicated to protecting and enhancing the gift of sight for millions of people around the world. We offer the world's widest and finest range of eye health products, including contact lenses and lens care products, ocular pharmaceuticals, intraocular lenses and other eye surgery products.

Carl Zeiss www.zeiss.co.uk

Carl Zeiss will be showing its latest range of 'Cirrus Family' offering a stand-alone HD-OCT 500 and combined OCT and fundus camera, the Cirrus Photo 600. Complementing these will be the Visucam 200 with MPD, our unique fundus camera, and the HFA which is the gold standard in perimetry.

The College of Optometrists

www.college-optometrists.org

Visit our stand at our annual conference, Optometry Tomorrow, to find out what the College can do for you. As a member you are entitled to a range of benefits to support you throughout your career, including access to journals, guidance and professional development opportunities. You can also order free patient information leaflets and children's stickers and activity sheets for your practice.

DOCET www.docet.info

DOCET (Directorate of Optometric Continuing Education and Training) helps optometrists keep their knowledge up to date and gain the CET points they need. DOCET produces high quality distance-learning CET materials, including video and audio media and e-learning.

Essilor www.essilor.co.uk

Essilor Instruments Division, based in Thornbury near Bristol, has recently launched an extensive range of equipment, used by optometrists and opticians for vision correction, screening and diagnosis of eye disease. This new product range allows Essilor to partner with opticians and provide equipment for the refraction room, front office and workshop.

General Optical Council www.optical.org

Optometry Tomorrow will be a great opportunity for registrants to meet General Optical Council (GOC) staff and ask any questions. It will come at a particularly useful time for registrants, three months into the new enhanced continuing education and training (CET) scheme.

Grafton Optical www.graftonoptical.com

Grafton Optical will present the latest OCT technology from Optovue for optometrists, the 3D 'iVue' offering retinal, glaucoma and corneal diagnostic solutions. We will be featuring our new CSO Photo Slit Lamp along with the Horus Scope, a handheld fundus camera.

Haag-Streit UK www.haag-streit-uk.com

Haag-Streit UK designs, manufactures and sells a complete line of optometry and ophthalmic equipment and has distributorships for leading brands, such as: Haag-Streit Diagnostics, Clement Clarke, Ellex, CenterVue and Haag-Streit Surgical (formerly Möller-Wedel).

Heidelberg Engineering

www.heidelbergengineering.co.uk

The Heidelberg Spectralis OCT offers simultaneous OCT and diagnostic quality fundus imaging with dual-laser active eye tracking free of motion artefacts. All Spectralis OCT models come standard with widefield and stereo imaging capabilities. BluePeak Autofluorescence and MultiColor scanning laser fundus imaging modalities can differentiate your practice.

International Glaucoma Association

www.glaucoma-association.com

Formed in 1974, the IGA is the charity for people with glaucoma. Our mission is to raise awareness of glaucoma, promote research related to early diagnosis and treatment, and to provide support to patients and carers. Every year, we organise National Glaucoma Awareness Week (10-16 June 2013).

Johnson & Johnson Vision Care

www.jnjvisioncare.co.uk

Johnson & Johnson Vision Care strives to increase awareness of the importance of vision and vision care and to provide the best correction choices. Over the past 30 years, we have been at the forefront of contact lens development and education for eye care professionals. The Acuvue brand contact lens range offers a comprehensive family of lens products that

allows freedom of choice for every patient.

MacuVision Europe

www.macushield.com

MacuVision Europe is a family run company based in Solihull. We are the only manufacturer of an eye care supplement containing the vital macular carotenoid meso-zeaxanthin. The flagship MacuShield product was launched in December 2006. With a focus on clinical trials and forming strong links with leading scientific institutes, the MacuShield brand has gone from strength to strength.

Mainline Instruments

www.main-line.co.uk

Mainline Instruments will exhibit a selection of Keeler, Huvitz and icare Tonometer products, now used in over 100 NHS hospitals and 1,500 optical practices in the UK. New from Huvitz is the wavefront technology HRK8000A Auto Ref/Kera, with high resolution colour camera for anterior segment image capture and blue illumination for CL fitting.

Spectrum Thea Pharmaceuticals

www.spectrum-thea.co.uk

Spectrum Thea Pharmaceuticals is dedicated to improving eye health problems. Our innovative products (including Nutrof Total, the Blepha range, Hyabak and Thealoz) are designed to be preservative free, perfume free and offer the most advanced formulations available. Also our award winning Dry Eye Project and now The AMD Project continue to be a successful way to help optometrists develop a dedicated, profit making clinic in-practice.

Topcon www.topcon-medical.co.uk

Topcon has been specialising in the manufacture of optical instruments for 80 years and has focused on quality and innovative optical technology, becoming a worldwide multinational company with subsidiaries in Asia, America and Europe.

WOPEC/Cardiff University

www.wopec.co.uk

WOPEC is the first postgraduate education centre for optometry in the world, dedicated to excellence in eye care education through quality and independence. We provide a wide range of postgraduate courses as well as short courses for optometrists and eye care professionals in the UK and internationally.

The Worshipful Company of Spectacle Makers

www.spectaclemakers.com

The oldest optical association in the world, the 384-year old Worshipful Company of Spectacle Makers (WCSM), offers the forum in which to contribute to the future of eye care within the UK in a relaxed, friendly and apolitical manner. Membership also offers opportunities to make new friendships and acquire new interests away from optics. ●
